EDUCATION

- Princess Sumaya University For Technology | 2023
Bachelor's degree of Software Engineering

- Bachelor's graduation project - Princess Sumaya University For Technology, Jordan | 2018-2023

- The graduation project : titled "Easy Hangout," is a social media platform designed to facilitate seamless communication and event organization among its users. This innovative platform empowers users to send messages, create groups, establish accounts, add friends, and even block unwanted contacts. A distinctive feature of Easy Hangout is its ability to leverage location-based data to organize hangouts for users, considering parameters such as location, time, and date. This novel approach streamlines the process of planning and attending social gatherings, making it a valuable tool for those seeking to connect with friends and explore new experiences. Easy Hangout represents a forward-thinking solution to enhance social interactions in the digital age, making it a standout graduation project. Designed and executed the study using ten beam specimens with varying proportions of substitute by weight, including a control specimen with 0% substitute.
- Analyzed the results using technical and analytical skills to draw conclusions and identify trends in the data.
- Developed problem-solving skills to find positive solutions in difficult situations encountered during the course of the study.
- Utilized communication skills to collaborate with team members and present findings to the professor and peers.

RESEARCH

EXPERIENCE

SKILLS & ABILITIES

- Very good communication, organizational, technical and analytical skills with an ability to find positive solutions in difficult situations.
- Engineering Technical support
- Software Testing
- Technical writing
- Team leadership

COMPUTER SKILLS

- **COMPUTER-AIDED DESIGN :**

- SDLC
- HTML
- JavaScript
- CSS
- API's
- Firebase
- Node.js
- MySQL
- React

- **APPLICATION :**

- Microsoft Word
- PowerPoint
- Word press
- Excel / Excel advanced
- Outlook

WORK EXPERIENCE

- Oct 2022 - jan 2023

Iton-it solutions, Jordan, Irbid / Engineer as a trainee.

Jordan, Amman/ The training was all based on routing and switching.

- Covering the CCNA.
- Servers configuration + RAID.
- Dealing with both windows server 2016 and 2019 to make a fully operatable system.
- FortiGate firewall.
- Acronis cloud.

LANGUAGES

- English (Reading, Writing, Speaking)
- Arabic (Reading, Writing, Speaking)
- Romanian (Reading, Writing, Speaking)
